TODD: Um, Greetings to all the supporters out there, this is Todd Ashker at Pelican Bay SHU on this starting on the 6th day of our hunger strike protesting these human rights violations and cruel and unusual conditions we have been experiencing here for the past 21 years. I just wanted to briefly send my greatest appreciation and thanks to the supporters out there without your support none of this would be happening. If know that these people here would let us all die, so I just wanted to thank you all very much.
